19 inch Wall Cabinet with Hinged 80mm, Rear Mounting

The IPC Wall Star range of 19" wall mounted cabinetry has been designed to securely house and manage active equipment.

Robust, durable and with customisable ventilation options, these wall cabinets are ideal for a small network or a temporary LAN installation.
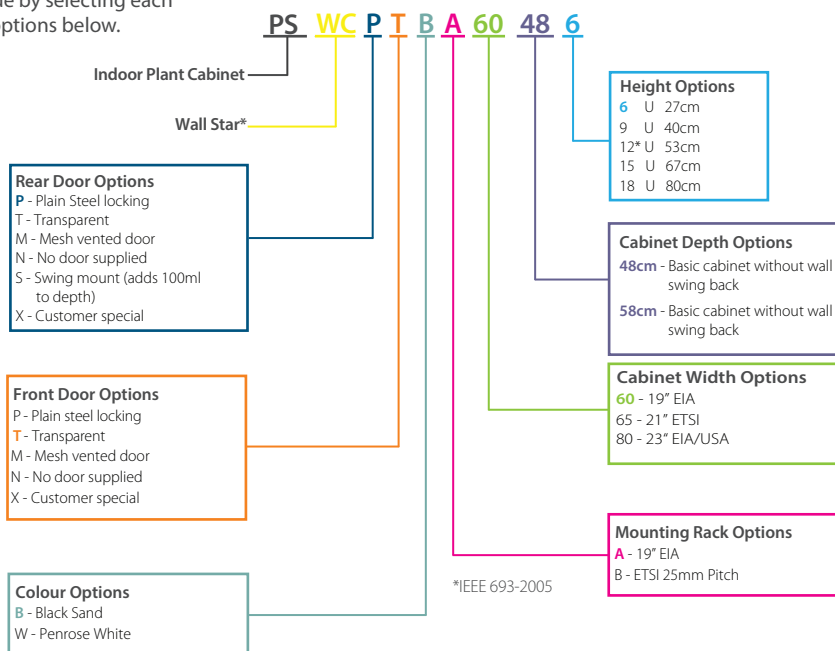

PLC's, power systems and monitoring equipment are found in industrial applications.

The optional back mount ensures fast and easy installation allowing easy access to the hardware within the cabinet.

Tested and compliant to IEEE 693-2005 seismic requirements, the cabinets are found around New Zealand in sub stations housing 110V DC power systems.

Wall star cabinets are available in a range of off the shelf options. Servers, switches and patch applications are also available.

To order your Wall Star simply quote the product code.
