

Telescopic Ceiling Screen Mount

Product Overview

Suitable for commercial applications in public spaces, the extendable telescopic pole is able to be secured to angled ceilings which allows for flexibility of screen positioning and is supplied with a ceiling penetration cover as well as clip in cable management cover.

Versatile

Option available for custom made covering (as above) for the mount and screen which offers tidy presentation alongside secure **single** or **double** screen attachment that gives peace of mind. Telescopic poles available in black, white or silver.
