

Ultra Thin Fixed Mounts

OMDWF-A1

Introducing one of, if not **THE** thinnest fixed wall mount available in New Zealand. The **OMDWF-A1(-B3)** (exact model depends on screen fixing centres) is the sleekest option to mount your TV or screen to a wall. Not only does the **ONEMOUNT** ultra thin fixed mount allow you to mount a TV or screen almost flush to the wall in landscape mode, it will also happily carry your digital signage screen in portrait mode too. Our ultra thin mount is a product designed for a professional finish to any residential or commercial project.

OMDWF-B3

The **ONEMOUNT** range of ultra thin fixed wall mounts have been designed and manufactured in New Zealand in six different mounting centre configurations. This allows for a wide range of sizes from 32" up to 100" and can carry up to 40kg. The option of a recessed wall box* also solves the sticky question of where to store the cables.

**wall box available to purchase separately in a variety of sizes*

Ultra Thin Side By Side Mounting

Due to the innovative design of the **ONEMOUNT** ultra thin range it is possible to create an ultra thin row of screens with only 10mm space between the wall and the rear of your screens. This is an easy to install and cost effective way to enhance the finished look of your side by side display while not compromising on quality.
