OneMount ProHead

Mount

- Maximum holding weight of 150kg
- Ceiling and floor mounting systems
- 70mm diameter pole – any length needed to suit the job
- Not telescopic but with an integrated cable management slot with a snap on cover
- Meets NZ earthquake standard
- Has a built in screw adjustment for pitch and yaw
- 360° head rotation
- Tested to 500kg

Cage

- Specifically designed to retrofit over OneMount brackets
- 370mm (H) x 600mm (W) x 640mm (D)
- 360° swivel
- Fully secured to the pole
- Padlocked access to prevent theft
- Adjustable front securing bar to suit left, centre or right lens positioned projectors
- Excellent ventilation
- Simple, fast and tool less cage removal for lamp and filter service
- Versatile enough for almost any projector in the category
