Product code:

# = Colour Choice - W – white, S – silver, B – black

\* = Mounting type

S – Standard mount – 3 Arm, load < 12kg

I – Install mount – 4 Arm, load < 25kg

## Product overview

An ideal solution for a wide range of installs, including classrooms, meeting rooms and home theatres, this family of 60mm diameter telescopic extrusions provides a professional solution with a hidden height clamp. Its top plate allows attachment to sloping ceilings and trusses without packing.

## Standard mounting type

- Simple adjustment of the 3 arms (3mm) allows attachment to all projector fixings within a 335mm diameter circle.
- Rated load < 12kg
- Extrusion cable cover & ceiling penetration cover included
- Attaches to sloping ceilings and trusses without packing.

## Install Mounting type

- "INSTALL" head provides 4 heavy duty steel arms (4mm) and clamp.
- Simple to attach and balance the 4 arms. Fit all projector mounting points within a diameter of 415mm.
- Rated Load < 25kg
- Attaches to sloping ceilings and trusses without packing.
- Extrusion cable cover & ceiling penetration cover included
